

JUDGES COMMENTS:

Houses are all well presented/maintained, as are the gardens, although a couple of gardens have long grass. Roads and paths are weed free. Green area is immaculately maintained, while the entrance to the estate is greatly enhanced by a planted feature. Trees also have plantings at their base which improve the look of the estate. Minor amounts of litter found within the estate (tissue and cigarette box). A small amount of dog waste was found on the green area, the estate is graffiti free. Tudor Lawns is a beautiful estate that is very well maintained, I would however recommend that a greater emphasis is placed on highlighting the efforts of the residents on the application form.
